Book Synopsis

Is your business struggling to stand out against the sea of internet listings? Do you want to start a business, but fear investing without the guarantee of quick and profitable growth? Today's top business owners know that the only way to grow quickly and profitably is to leverage the power of online marketing. But breaking through to your target customers without breaking the bank requires a reliable system to take your business from the shadows to the top of the search results. Written specifically for service business owners, Grow! provides a three-part path that gets out of the theoretical and shows service companies how to understand, implement and get fast growth with fat profits, with a system that has been thoroughly tested and proven by hundreds of service companies. In Grow!, author, US Air Force pilot, and highly successful entrepreneur Donnie Shelton reveals the system he devised to grow two service companies from pennies to multi-million dollar organizations in just a few short years. Geared toward greenhorns and experienced owner-operators alike, the Grow! Inbound Marketing System is a simple, proven, step-by-step plan that will show you how to get the customers you want, when you want them, and at a fraction of the price of traditional advertising. This is the future of business success. Are you ready to Grow!?
